EDUCATION

Vidya Pratishthan's Kamalnayan Bajaj Institute of Eng. & Tech.
B.Tech in Artificial Intelligence & Data Science

2023 – 2027 (Expected)
CGPA: 8.02/10.0

Kilachand Junior College , Nira
Class XII (HSC)

2023
Score: 72%

Mahatma Gandhi Vidyalaya , Nira
Class X (SSC)

2021
Score: 95.60%

PROJECTS

AI-Powered Women's Safety Route Advisor

Technology: Python, Flask, MySQL, Leaflet.js, OpenStreetMap API, Twilio API

- Developed a web-based safety navigation system using **Flask** and **MySQL** for secure route recommendations.
- Implemented location-based risk analysis and **safety scoring algorithms** using geographic and incident data.
- Integrated **OpenStreetMap APIs** for route generation, geocoding, and interactive route visualization.
- Developed an **SOS alert module** with real-time location sharing through Email, SMS, and WhatsApp notifications.

AI Movie Recommendation System (Content-Based ML Application)

Technology: Python, Scikit-learn, Streamlit, Pickle, TMDB API

- Built a content-based movie recommendation system using **cosine similarity** on preprocessed feature vectors.
- Implemented similarity scoring with a precomputed similarity matrix to generate **top-5 movie recommendations**.
- Integrated **TMDB API** to dynamically fetch and display movie posters, enhancing user experience.
- Developed an interactive **Streamlit** web application for real-time movie recommendations with visual insights.

TECHNICAL SKILLS

- **Programming Languages:** Python, Java, C++
- **Frontend Technologies:** HTML, CSS, JavaScript, React.js
- **Web Technologies:** Flask, REST APIs, Streamlit
- **Databases:** MySQL, MongoDB
- **Currently Learning:** C#, .NET Framework Fundamentals
- **Developer Tools:** Git, GitHub, VS Code, Docker, Jenkins, AWS
- **Concepts:** OOP, DBMS, SQL, Data Structures & Algorithms, Operating Systems, SDLC, CI/CD
- **AI/ML:** Scikit-learn, TensorFlow, PyTorch

LEADERSHIP & ACTIVITIES

Software Developer Intern – THE CIRCLE NEXTGEN Pvt. Ltd.

Jun 2026 – Present

- Working on **live software development projects** and real-world assignments under professional supervision.
- Collaborating with developers to implement, test, and debug software applications and features.
- Applying **software engineering principles**, database concepts, and version control in development workflows.
- Gaining hands-on experience in **full-stack application development**, deployment, and industry best practices.

Technical Development

- Developed web applications using **HTML, CSS, JavaScript, React.js, and REST APIs**.
- Built projects including a **Currency Converter** and **Rock-Paper-Scissors Game** to strengthen frontend development and API integration skills.
- Implemented **DOM manipulation, event handling, and asynchronous JavaScript** for interactive user experiences.
- Solved **100+ algorithmic problems** on LeetCode and GeeksforGeeks, strengthening problem-solving and data structures.

Treasurer | Student Association of Artificial Intelligence

- Managed association finances, including budgeting, fund allocation, and expense tracking for student activities.
- Collaborated with committee members on event planning, technical initiatives, and organizational decision-making.
- Coordinated workshops, hackathons, and academic events, supporting student engagement and participation.

CERTIFICATIONS

- **Web Development Training Program** – Ascent Softech
- **RDBMS PostgreSQL** – I.I.T.Bombay
- **Python For Data Science** – NPTEL(I.I.T.,Madras)
- **Innovation 2k25** – National Level Hackathon (College Of Engineering , Phaltan)
